

BIG THANKS FOR JOB WELL DONE!

When approximately 8,500 Seaver College graduates, families, friends, special guests, faculty, and staff members arrived at Alumni Park on Saturday, April 26, 2008, for the commencement ceremony, everything from the bleachers to each blade of grass had been planned by Pepperdine University's Facilities Maintenance and Planning crew.

In the unusually warm days leading up to the Seaver graduation, over one hundred Campus Operations employees began organizing and transporting needed materials for the ceremony in addition to student move-out and Bible Lectureship preparations. Maintenance, trash removal, cleaning 23 residence halls and 147 apartments, carpentry, electrical installation, and wiping down bleacher seats at 5:00am on Saturday (this year the wind blew over some of the chairs, requiring them to be set up, twice!), were just some of the behind-the-scenes preparations on the checklist.

Eight special teams from all trades of FM&P, shuttle drivers, plus support from FM&P dispatch, directors, and managers dedicated themselves to their rule of engagement - *team of many trades, one mission.*

We extend a special thank you to all members of Campus Operations for your excellent work and dedication to this University. Each of you contributes a wonderful spirit of service and purpose, displaying your own personal form of leadership in the tasks you do as a contribution towards the "Pepperdine effort."

TEAM MEETING

EVERY CORNER IS CLEANED, REPAIRED, AND INSPECTED

For these events, everyone
is the same trade:
"THE GET IT DONE TRADE!"
