

PRIORITIZING THE HUMANITY OF DEI

RSVP TODAY!

The word **humanity** is from the Latin *humanitas*, which means "human nature, kindness." Humanity includes all humans, but it can also refer to the kind feelings humans often have for each other.

The Margaret J. Weber Distinguished Lecture Series' February event will focus on the humanity of diversity, equity, and inclusion efforts from a spiritual, organizational, and law perspective.

Our panel of leaders will discuss the intentionality required for DEI efforts from a human-worth viewpoint to flourish.

We'll examine what the absence of, or resistance to diversity might look like; growing as an individual; supporting your organization's health; and practical tools you can implement in your space to feel and promote the greatness of humankind through humane treatment and DEI efforts.
