Global Family Office Summit

Business families uniting in purpose, generosity, excellence, and social impact.

October 19–23, 2026 | Château d’Hauteville, Switzerland
PEPPERDINE UNIVERSITY

A Holistic Approach to a Holistic Venture

Taking place at the historic Château d’Hauteville—Pepperdine’s breathtaking 90-acre international campus in Switzerland—the Global Family Office Summit will strengthen established family business networks and explore new opportunities among Pepperdine-affiliated families stewarding multigenerational wealth. This exclusive, invitation-only gathering is designed to provide a secure and intellectually stimulating environment for the education, support, and empowerment of high-net-worth and ultra-high-net-worth families committed to building enduring legacies that reflect their deepest values and greatest aspirations.

The summit’s main objective is to help families transform wealth from a potentially divisive resource into a lasting legacy that instead will unite generations and create a positive impact on communities around the world. During the event, participants will engage with respected experts, seasoned professionals, and visionary leaders from the Pepperdine community and around the world. Through meaningful workshops and conversations, families will gain valuable insights into family governance and philanthropy.

The summit will open and close with large group events, while the remainder of our time together will include hands-on workshops and interactive sessions with world-class experts, providing practical tools and evidence-based strategies to strengthen succession planning, drive innovation, and safeguard the reputation of family enterprises into the future. Participants may select for those workshops that are most relevant to them and their family.

In addition, the summit will emphasize the importance of building connections among families who share common values and a commitment to social impact. Opportunities for collaborative learning and purposeful dialogue are woven throughout the program, fostering meaningful relationships and encouraging collective action. (Note: Attendance is highly cultivated. A no-sell environment will be maintained by Pepperdine leaders as well as expert guest speakers).

Proceeds from the summit will benefit Pepperdine’s efforts to support family office programs, advancing academic excellence and public service by strengthening the essential foundation of society—the family. Participation in this unique gathering reflects a deep commitment not only to the future of the family office, but also to the timeless pursuits of generational wisdom, ethical leadership, and purposeful philanthropy.

Summit Highlights

Together, we’ll explore the following subjects vital to a thriving family business:

FAMILY GOVERNANCE AND SUCCESSION

As years pass, many things change—global markets, business trends, technology—as well as the outlooks and perspectives of various generations. At the Global Family Office Summit, we’ll address best practices for multigenerational wealth transfer, focusing both on changing times and how to keep the values specific to your family office intact.

RECONNECT SPIRITUALLY

Optional chapel services will be held daily, and spiritual leaders will be available for prayer throughout each day. We will also provide reflection guides and contemplative prayer guides so that you can take the concerns you have, practical and otherwise, to God.

BALANCING RELATIONAL WHOLENESS WITH FINANCIAL PROSPERITY

At the summit, you’ll learn techniques to strengthen relationships and communicate more effectively between generations with the help of Pepperdine’s Boone Center for the Family. Licensed counselors will be on-site to provide spiritually based guidance, should you choose to take advantage of those services.

HEALTH AND WELLNESS

When leading families and organizations, it can be difficult to ensure that we are caring well for ourselves while also caring for other members of our team. The summit will offer optional morning stretch times, walks, and hikes, and healthcare practitioners and nutritional counselors will be available for consultation on-site.

LEGACY AND PHILANTHROPIC PLANNING

Understanding the many philanthropic options available to business families allows them to reduce tax liabilities and support impactful causes. We’ll help you identify and direct your shared family mission toward a future that will serve generations to come through responsible philanthropy.

Accommodations

Recommendations provided after registration

Fees and Enrollment

- ▶ **Summit cost per participant**
includes meals and program materials
\$12,000 for first family member and spouse
+\$2,000 per each additional family member
