**Glazer Institute Mission Statement:** The Glazer Institute was established based on the understanding that as a Christian University, Pepperdine's students are especially open to discussions of faith and identity, but are often unacquainted with Christianity's ongoing relationship with Judaism. The Glazer Institute is designed to increase a majority-Christian academic community's exposure to, discussion of, and awareness of Judaism, Jewish Studies, and Israel. The Glazer Institute seeks to provide new avenues for students to explore and connect Jewish and Christian identities through various opportunities—curricular and co-curricular.
