

Essay Three

Committee/Essay: Information Sharing

Product (Overall Plan)

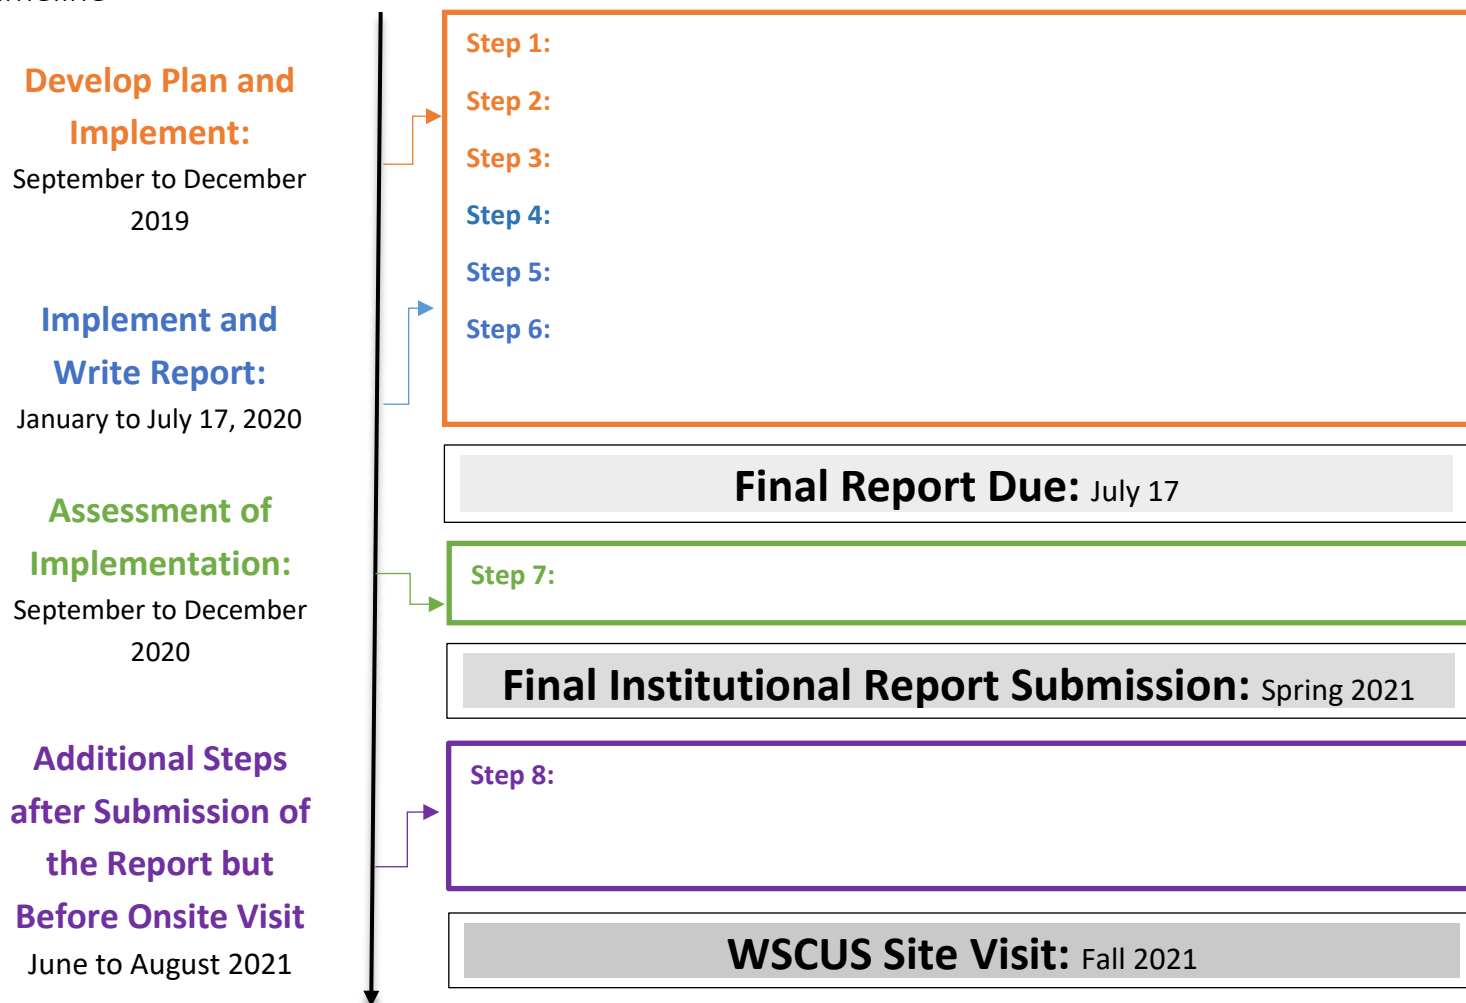

Information Sharing

1. Develop 1-page graphical report for sharing annual assessment.
2. Develop 1-page graphical report for sharing Program Review.
3. Develop 1-page graphical report for sharing at UPC and UAC.

Outcomes

1. The knowledge-sharing process will encourage collaboration between faculty, staff, students, alumni, and upper administration.
2. The knowledge-sharing model will include effective face to face and digital communication processes that involve both internal and external stakeholders.
3. The model will include a defined purpose, process and product.
4. Knowledge sharing will produce a cultural change in the way we share student learning and program review data that will benefit our community by providing greater transparency, trust and collaboration. Our hope is that this model will advance the way we use assessment and program review results so they become valued processes in curriculum, teaching and learning.
