§ 1.00.00 Introduction

§ 1.01.00 The parking and traffic regulations are in place to provide a safe, efficient, and organized environment for drivers and pedestrians to share the road and parking resources throughout campus. Each registrant is responsible for knowing and adhering to these regulations and procedures. Failure to comply with these regulations is a serious concern and will be reviewed by the appropriate University official and may result in fines, disciplinary action, and impact on a person's eligibility to park/drive a vehicle on campus or obtain/ renew a parking permit. A summary of these rules and regulations is also present in the [Student Code of Conduct](#) and referenced in [University Employee Manual](#). Please contact the Department of Public Safety (Public Safety) if you have questions.

§ 1.02.00 The California Vehicle Code (CVC) Section 21113a empowers Pepperdine University Regents to establish specific parking and traffic regulations on University property and issue designated fines. The California Vehicle Code is enforced on all campus roadways, and the policies contained in the Parking and Traffic Regulations are available on the [Public Safety website http://www.pepperdine.edu/publicsafety](http://www.pepperdine.edu/publicsafety). Registrants are solely responsible for familiarizing themselves with all policies. Pepperdine University Parking and Traffic Regulations are adopted by the Board of Regents and are available for review in the Department of Public Safety and online.

§ 1.03.00 These regulations may be enforced by the Department of Public Safety, the California Highway Patrol, the Los Angeles County Sheriff's Department, or other law enforcement agencies.

§ 1.03.01 Pepperdine community members, following the [Community Enforcement Guidelines](#), Campus community members may submit information about parking and traffic violations through the LiveSafe app. It may result in follow-up with the vehicle owner if the vehicle is still present, the parking citations, and warnings by receiving a paper citation left on the vehicle windshield by a Public Safety Officer. If the vehicle is no longer present, Public Safety will follow up with the vehicle owner, and the report could result in disciplinary action.

§ 1.04.00 All motorized vehicles on campus, including motorcycles, mobility scooters, electric carts, and mopeds, must be appropriately registered with Pepperdine University and the Department of Motor Vehicles (DMV) as applicable. Compliance with the registration process includes the proper display of a vehicle license plate, possession of a valid driver's license, proof of auto insurance, and current DMV registration tags on the vehicle.

§ 1.04.01 For the purpose of this document, reference to "vehicle registration" refers to properly registering a vehicle with Pepperdine's parking management program Flex, not DMV registration.

§ 1.06.00 Pepperdine University reserves the right to revoke an individual's campus parking and driving privileges while on campus property.
