

Benediction
Soul Force Visit
March 27, 2007
Heroes Garden
D'Esta Love

Our Father, in the cool of the evening, we feel your presence and we are calmed as stillness falls around us. We trust the labors of our hands and the words we have spoken these past two days to your care and keeping. We place ourselves under your tender mercy and we seek to glorify you in all our ways.

Grant us rest that we might rise at morning light to be your instruments of grace and peace and speak your words of life and love.

And we ask a special blessing on the soulforce riders with whom we have shared the past two days. Grant them safety on their journey, grant them sanctuaries of hospitality and grant them peace.

In Jesus' name, Amen
